---

01

~~Say my name, say my name~~  
~~You actin' kinda shady,~~  
~~ain't callin' me, "Baby"~~  
~~Why the sudden change?~~

**Climate change, climate change.  
We caused it by emitting,  
forests disappearing,  
and we just can't refrain.**

---

02

~~Say my name, say my name~~  
~~If no one is around you,~~  
~~say, "Baby, I love you"~~  
~~If you ain't runnin' game~~

**Climate change, climate change.  
Storm intensity increasing,  
our glaciers are melting,  
heatwaves and shifting rain.**

---

03

~~Say my name, say my name~~  
~~If no one is around you,~~  
~~say, "Baby, I love you"~~  
~~If you ain't runnin' game~~

**Climate change, climate change.  
Consensus overwhelming,  
expert voices deafening,  
inaction is our shame.**

---

04

~~Say my name, say my name~~  
~~You actin' kinda shady,~~  
~~ain't callin' me, "Baby"~~  
~~Better say my name~~

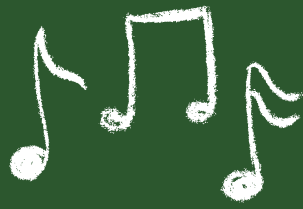

**Climate change, climate change.  
Rising sea temp and levels,  
hurt equity is dismal,  
and the problems are  
man made.**

---

05

~~Any other day I would call, you would say  
"Baby, how's your day?" But today, it ain't the same  
Every other word is, "Uh huh, yeah, okay"  
Could it be that you are at the crib with another lady?~~

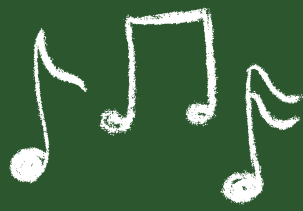

**Two centuries ago,  
things were cooler than today.  
As industry grew,  
we burned fuels to get our pay.  
Our populations grew,  
so did our Ag' intake.  
We needed room for 'new', so we  
cleared trees at a massive rate.**

---

06

~~If you took it there, first of all, let me say  
I am not the one, to sit around, and be played  
So prove yourself to me, if I'm the girl that you claim  
Why don't you say the things, that you said to me yesterday?~~

**Scientists have shown,  
one to two degrees is grave.  
Sea levels move up.  
Most heat absorbed, by our waves.  
Extreme weather frequently –  
heat, drought, fire, flood, and rain.  
How are we tracking then?  
Already more than half way!**

---

07

~~I know you say that I am assuming things  
Something's goin' down, that's the way it seems  
Shouldn't be no reason why you're actin' strange  
If nobody's holdin' you back from me~~

**I know some of you  
don't believe its true.  
Good news! Not a faith,  
we can prove it too.  
Scientists have a process  
and its peer reviewed.  
The IPCC report are free.**

---

08

~~'Cause I know how you usually do  
Where you're sayin' everything to me times two  
Why can't you just tell the truth?  
If somebody's there then tell me who~~

**But don't freak,  
it 's not all doom and gloom.  
Engineers have the tech  
and solutions too.  
We just need to to  
change our groove.  
So the next generation can  
walk in our shoes.**

---

09

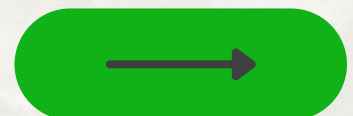

**Climate change, climate change.  
We caused it by emitting,  
forests disappearing,  
and we just can't refrain.**

**Climate change, climate change.  
Storm intensity increasing,  
our glaciers are melting,  
heatwaves and shifting rain.**

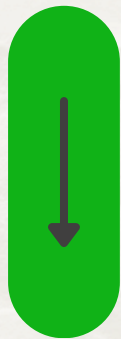

**Climate change, climate change.  
Consensus overwhelming,  
expert voices deafening,  
inaction is our shame.**

**Climate change, climate change.  
Rising sea temp' and levels,  
hurt equity is dismal,  
and the problems are man made.**
